

BIOLOGICAL STAIN COMMISSION, Inc.
Annual Meeting Friday 4th June 2010
Del Monte Lodge Renaissance Rochester Hotel and Spa
Pittsford, New York

<u>Time</u>	<u>Speaker(s)</u>	<u>Affiliation</u>	<u>Title of Presentation</u>
8:00--8:20 a.m.	Continental breakfast and registration		
8:20--8:30 a.m.	Welcome and Introduction		
8:30--9:00 a.m.	David Hicks, M.D.	Department of Pathology & Laboratory Medicine; University of Rochester Medical Center; Rochester, NY	Breast cancer predictive factor testing: the challenges and importance of standardizing pre-analytical variables
9:00--9:30 a.m.	Lynne Rainen, Ph.D.	PreAnalytiX GmbH and BD Diagnostics; Preanalytical Systems; Franklin Lakes, NJ	New fixation technology for the simultaneous preservation of morphology and nucleic acids in tissues
9:30--10:00 a.m.	Helen Moore, Ph.D.	NIH--National Cancer Institute; Bethesda, MD	The NCI Biospecimen Research Network.
10:00--10:25 a.m.	David P. Penney, Ph.D.	Biological Stain Commission; University of Rochester Medical Center; Rochester, NY	A Brief History of the Biological Stain Commission
10:25--10:45 a.m.	BREAK		
10:45--11:05 a.m.	Chad Fagan	Biological Stain Commission; University of Rochester Medical Center; Rochester, NY	Laboratory Updates in the Biological Stain Commission
11:05--11:30 a.m.	Haodong Xu, M.D., Ph.D.	Department of Pathology & Laboratory Medicine; University of Rochester Medical Center; Rochester, NY	Insulin-like growth factor II mRNA-binding protein 3 (IMP3): a diagnostic and prognostic biomarker in cancer.
11:30--12:00 noon	ANNUAL GENERAL MEETING		
12:00--2:00 p.m.	LUNCH		
PRESIDENT'S FORUM			
2:00--2:30 p.m.	Regis O'Keefe, M.D., Ph.D.	Orthopaedics and Rehabilitation; Center for Musculoskeletal Research; University of Rochester Medical Center; Rochester NY	Mechanisms whereby PTH stimulates fracture healing in young and aged mice
2:30--2:45 p.m.	Yingchuan Hu, M.D.	Departments of Pathology & Laboratory Medicine; University of Rochester Medical Center; Rochester, NY	HER2/neu overexpression and amplification in esophageal adenocarcinoma and high grade dysplasia.
2:45--3:00 p.m.	Christa L. Whitney-Miller, M.D.	Department of Pathology & Laboratory Medicine; University of Rochester Medical Center; Rochester, NY	HER2 testing in gastric cancer: emerging therapeutic options and diagnostic challenges.
3:00--3:15 p.m.	Jiqing Ye, M.D., Ph.D.	Department of Pathology & Laboratory Medicine; University of Rochester Medical Center; Rochester, NY	Usefulness of Napsin-A and TTF-1 in Discriminating Metastatic Carcinoma from Primary Adenocarcinoma of the Lung
3:15--3:30 p.m.	Haodong Xu, M.D., Ph.D.	University of Rochester School of Medicine & Dentistry; Rochester, NY	Metastatic endometrial stromal sarcoma in the lung: importance of immunohistochemical staining, clinical history and imaging studies.
3:30--3:50 p.m.	BREAK		
3:50--4:05 p.m.	Jennifer Findeis-Hosey, M.D.	Department of Pathology & Laboratory Medicine; University of Rochester Medical Center; Rochester, NY	IMP3 and EZH2 in Neuroendocrine tumors of the lung.
4:05--4:20 p.m.	Faqian Li, M.D., Ph.D.	Department of Pathology & Laboratory Medicine; University of Rochester Medical Center; Rochester, NY	Search for ideal heart progenitor cell markers: from bench to bedside.
4:20--4:30 p.m.	CONCLUDING REMARKS		

RECEPTION AND DINNER

6:30-7:30 p.m. **Reception**

7:30-10:00 p.m. **Dinner**
